NOTES:
Not all legend items may appear on this map.
Features shown on this map do not imply public access to any lands.
The land status data displayed on this map may not be complete and may contain errors in boundary locations and/or coding.
DISCLAIMER:
The MT Natural Heritage Program, MT State Library, MT Dept. of Administration and MT Dept. of Revenue make no representations or warranties whatsoever with respect to the accuracy or completeness of the data contained in these maps and assumes no responsibility for the usability of these data for a particular purpose. These agencies will not be liable for any damages incurred as a result of errors displayed here. The ownership boundaries displayed on this map are based on land survey data and are not a substitute for property surveys. This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

SOURCES / ACKNOWLEDGEMENTS
The private land data were developed for the Montana Central Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DMA), the Montana Department of Revenue (DOR), the Montana State Library, and the Montana Natural Resource Information System (NRIS), which are all part of the Montana Department of Fish, Wildlife & Parks. The DMA maintains the GIS cadastral layer and the DOR maintains the private ownership information. The public land data is from the MT Natural Heritage Program land stewardship data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates (especially for tribal lands and private lands) were added by the University of Montana, Wildlife Spatial Analysis Unit, during 1996-1998. Since 1998, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These data are based on data supplied by the various public agencies and land users, and have not been verified against county or Montana Department of Revenue records.
